

## Testimonials

*"When we were in the process of setting up our new blood filtration facility in Filton, Smart provided us with a very good service. They listened to our requirements, helped us formulate our ideas and came up with a design that supported our new operating process. They built, installed and continue to maintain the system which works very well for us. Smart have also helped us with subsequent developments that have significantly improved our efficiency."*

**Nick Tandy, National Blood Service**

*"Smart Manufacturing have done a very good job for us and I have managed to get on swimmingly well with the staff that I have dealt with (it is a pleasure to be frank) they have always done their best to help us and get jobs done as quickly as possible. Overall I am very pleased with Smart."*

**Patrick Cooke , TSL Projects**

*"They have done good work for us for years. Their ability to work out of hours and fit in with our production needs is key to how we use them."*

**Roger Mortimer, Actavis**

*"At Actavis we have a very good working relationship with Smart Manufacturing which we hope will continue. We require high quality work/workmanship along with competitive prices and we get that from Smart."*

**Carl Riccard, Actavis**

*"We have worked with Smart Manufacturing for some time now. Their ventilation systems and stainless steel fabrications are to a good standard, they provide a quick turnaround and are competitively priced. Their ability to do "one off jobs" to meet our particular requirements is very important to us and sets them apart."*

**David Courtney, Buckingham Foods**

*"Smart Manufacturing are flexible and always good to work alongside to achieve what we want. Some companies see a large company and think they can sign their own work list just to make work. Smart Manufacturing do what you ask."*

**John Metcalfe**
